

OSTRACISED.

Catholic Societies Expelled Non-Union Miners in Anthracite Coal Field.

CHAIRMAN GRAY DENOUNCES BOYCOTS MOST VIGOROUSLY.

Heartbreaking Stories of Persecution and Violence to Non-Union Men and Families.

OPERATOR'S SIDE NOW GETS HEARING.

Scranton, Pa., Dec. 19.—Non-union men, some of their relatives and others to the number of thirty appeared before the anthracite coal strike commission today and told their stories of boycotts, intimidation, dynamiting and violence in various forms during the late strike. Each witness called was a sufferer in one form or another at the hands of union men. Four witnesses said attempts were made to blow up their houses, one house was badly damaged, many of the witnesses were threatened with bodily harm, several were beaten, one was shot in the leg and every one stoned, boycotted or hanged in effigy. One school teacher testified to having lost his position because his father did not strike. One man was asked to resign from a Catholic temperance society and another witness was expelled from a local lodge of the Ancient Order of Hibernians after a membership of twenty-six or twenty-eight years because they were classed as un-union workmen.

Joseph H. Dugan, the man who was requested to give up his membership in the Catholic temperance society, remained at work doing repair work and acting as a watchman. He wept while on the witness stand as he told of how they ordered him to leave after many years of pleasant social relations with its members. He was very active in the society and drilled many of those who have grown to manhood in the military branch of the Catholic society. He said he had been stoned and otherwise badly treated, and added that a good flogging would not have hurt him as much as the action of the society in throwing him out of the order. The boys he had drilled in the society stoned him on the highway.

Chairman Gray asked the witness if he remained at work so that the pumps could be kept in good repair, and thus keep the mines from being destroyed, and he said he did.

Mr. Darrow asked him how long he worked, and examined him in such a way on this that it drew out the remark from Chairman Gray that men will work fifteen hours to help save a neighbor's house.

Other witnesses testified that grocers, butchers, milkmen and loamen refused to serve them because they were afraid their business would be boycotted.

Denounces Boycotts.

"The coward who will go to the storekeeper," Chairman Gray said, "and tell him not to sell the necessities of life to a poor woman usually seeks the obscurity that the law of evidence throws around him. If a girl is discharged from her position in a store because she rode in a street car in inclement weather while a street car strike was on, the coward who discharged her is coward enough to refuse to testify."

He recognized, he said, why some merchants will not come

forward and tell who forced him to refuse to sell the necessities of life to certain boycotted persons, but if he (Chairman Gray) were a storekeeper he thought he would risk his all in order in breaking up the cowardly business.

LATER NEWS FROM THE COMMISSION.

Other Boycotts and Persecutions—Woman's Home Burned Because Husband Worked.

Scranton, Pa., Dec. 20.—John H. Otto, the first witness called, said all the merchants in Archbald, Pa., were compelled to boycott him because he worked in the mines.

The second witness was a boy, who was forced to leave the store he was employed in on account of his father being a non-union man, and the next witness testified that strikers tried to have him forced from the volunteer fire company because he continued at work as a mine engineer during the strike.

Her Home Burned.

Mrs. Rhoda Snyder, of Wilkesbarre, with a baby in her arms, took the stand and, with tears running down her face, told of the burning of her home by strikers. Her husband was in the mines and could not come home because he feared bodily harm. She and her children were so badly abused that she moved to another part of the city. Her reception in the new home was hostile, and she decided to move to her mother-in-law's home. The strikers prevented her, and she and her two children took refuge with the mother-in-law. The same night the house and all its contents were destroyed by fire. Her goods were not insured. Her father-in-law corroborated her testimony.

Dr. L. L. Sprague, president of Wyoming Seminary, of Kingston, told of the difficulty he had in getting coal for the seminary. He said the union made it very difficult for the institution to get its supply of fuel.

IF WE KNEW.

BLUE G. BARD.

If we knew each other's mind And the secrets hidden there, What revelations we would find When that mind to us lay bare.

If we knew each other's mind, Knew each other's every thought, Friendship would not be so sweet If we knew that it was bought.

If we knew each other's mind, As each of us would like to do, How many would prove false That now we think so true?

If we knew each other's mind Grieved would be our hearts today, From many that we cling to now Sadly we would turn away.

ASKS DAMAGES.

Principal of Henderson High School Sues Proprietor of the Gleaner.

Henderson, Ky., Dec. 18.—A sensational suit was filed this morning in the Circuit Court by H. A. Hayes, principal of the High School against F. Haag, the editor and publisher of the Gleaner, for \$25,800 damages. This suit is the outcome of Hayes having been arrested on the charge of attempting to burn the Hotel Henderson, of which Haag is proprietor. Haag, he alleges, swore that he, Hayes, set fire to the hotel.

In Covington pool-room owners are fined \$100 for maintaining a nuisance. Covington is in Kentucky, but the necessities of the gamblers in Louisville know no law.

A Kentucky woman has made the record of divorcing herself from two husbands in one day and for a single attorney's fee. Isn't this a trifle speedy for the Blue Grass State? It would seem to be more in accord with the Chicago pace.

Wm. R. Hearst, editor of the New York Journal, is mentioned as a Democratic candidate for President, but he ought to be satisfied with the Vice-Presidency, if Editor Watterson can be persuaded to accept the Presidency.—Evening Post.

Gov. Beckham on Monday appointed J. Fleming Gordon, of Madisonville, to succeed Judge T. J. Nunn on the Circuit Court bench. Mr. Gordon will be a candidate for the Democratic nomination for the office next year.

The first of January is approaching and we had all better be making ourselves Christmas gifts of a lantern or two. The edict has gone forth and on the night of the first of January the electric street lights will go out.—Madisonville Hustler.

Forbidden by William Harrel to speak to his daughter, whose hand in marriage he sought, A. C. Rush, a respectable young man living near Berk City, on Green River, was shot and fatally so by the father of the girl. Rush was arrested and released on bond of \$500.

Auditor Coulter has begun an exhaustive examination of the various life and fire insurance companies doing business in Kentucky. The object is to ascertain whether the companies have made correct reports of the business transacted and the premiums collected.

The people of Kentucky seem warming up in the work for the state exhibit at St. Louis and a great deal of interest is being aroused in the effort to secure a creditable one. It now seems certain that Kentucky will be one of the best represented states at the exposition, despite the fact that the legislature refused to make an appropriation.—Paducah Sun.

January 5 is the date on which stacks of leading Republicans will gather at the Galt House, Louisville, to participate in a farewell banquet given to Mr. Leslie Combs, the newly appointed Minister to Guatemala.

The Democrats are in a big State row over the gubernatorial nomination fight and Governor Beckham's card has made the opposition warm under the collar.

A rural free delivery route has been ordered for Providence at the instance of Representative Allen, to begin February 1.

DOWN IN THE MINES.

The recent heavy rains caused Loch Mary to rise considerably in the night and much excitement prevailed for a time over reports that the dam was in danger. Quick action was required in the early morning to prevent a serious break in the dam, but the water was kept under control and only trivial damage was done.

Foreman Newstead now has a new machinist at work at the No. 9 machine shop, who comes well recommended from the Earlinton Iron Works, where he was employed for some time.

Work on the new tiple at No. 11 mine is progressing as rapidly as the carpenter force can find time to push it.

Geo. W. Wyatt had a very remarkable head-on collision in the mine the other day and now sports two black eyes and a bruised proboscis. It was not a collision of trains or of coal cars. He simply came face to face with a mine mule and the mule's head was the hardest.

The new armature for the alternating current generator has arrived and the incandescent lights have resumed their wonted brightness.

The coke oven force have been putting in extra shifts almost nightly since the addition of 23 new ovens.

Seebie is to have a new depot. The building is already under construction and will be completed in the near future.

Pembroke is also to be blessed with a new depot soon and will be ahead of several of the other stations in this respect.

That new depot at Evansville is almost completed and is a thing of beauty. It is built of stone and makes an imposing structure. It is fitted up with all the modern improvements and conveniences and the people of Evansville are justly proud of it. The L. & N. may seem a little dilatory at times, but in the language of the street gamin, "she gets 'er just the same."

John Devney and his friend, Henry Rogers, will spend Christ

Lowry Todd is now at work at Arnold mine, having left the store, where he was for a time employed.

A change in working hours has been made at No. 11 mine which seems to suit the force quite well.

Harry B. Withers, for some time on the mechanical force of the St. Bernard, has severed his connection with that company and is now under the employ of L. H. O'Brien, foreman of the L. & N. shops.

John Crabtree was hurt in the mines Saturday by a fall of gobb. He was protected by a car and escaped with a fractured rib.

No. 11 mine had an accident to befall one of their team mules last week. The team was coming down the hill with a trip when, for some unknown reason, the lead mule ran to one side and jerked the wheel mule down under the rolling trip. He was not killed but had a leg broken. He was next taken to the shaft and has the "mule honor" of being the first mule to make his exit via the shaft.

Conductor Will Bramwell is a nice man and just as accommodating as can be. We know of several ladies who sung his praises loud and long last Saturday.

KENTUCKY AT THE FAIR

Money Raising Promises to Go Along With a Vim—What Some Are Doing.

AGRICULTURAL SUB-COMMITTEES ARE NOW BEING APPOINTED.

Covington has organized to raise \$125,000 towards a Kentucky building and full display of Kentucky's products and resources at the World's Fair. Lexington and Fayette county are counting on getting \$10,000. In fact a majority of the counties have gone to work with a vim, determined to do their share.

Chairman L. D. Dorsey, of the Committee on Live Stock Exhibit at the World's Fair, has appointed sub-committees on every class of stock in the State, including five kinds of cattle, five kinds of horses, sheep, hogs, jacks, mules, Belgian hares, poultry and pigeons. He says Kentucky will beat the world on live stock, as she will in many other things, at the exposition.

The Finance Committee of the Kentucky Exhibit Association has been perfecting an organization in every city and county in the State that will undoubtedly bring in thousands of dollars toward the \$100,000 fund immediately after the New Year. All the sub-committees on large interests—such as distillers and liquor dealers, oil companies, lumber firms and corporations, manufacturers, live stock dealers, banks, coal companies—are getting or preparing to get out letters asking for subscriptions, which may be sent either to the Secretary at Louisville or to the Secretary of the organization in their county.

Hon. I. B. Hall, Commissioner of Agriculture, who is chairman of the Committee on Agricultural and Horticultural Exhibits at the World's Fair, is appointing sub-committees in every county in the State and the list will be announced within the next few days. The membership of these sub-committees ranges from three to ten. Each will have a chairman and will be expected to see that its county is represented in the exhibits by everything possible of an agricultural and horticultural nature.

Louisville dealers in fruits and berries must next season sell in boxes containing a full quart. The habit of selling berries by short measure is to be broken up by law.

Church Property Bought.

The Knoxville, LaFollette & Jellico railroad (L. & N.) has purchased the site of the German Evangelical Lutheran Church in Knoxville. This property will be used by the railroad as a part of the tract for its magnificent passenger station. The price paid, it is said, was \$18,500, and it is understood the railroad agrees to contribute \$500 to the church building fund. The property is to be surrendered to the railroad March.

When M. Loubet, the French president, was in St. Petersburg he left \$5,000 roubles for the poor of that city. It has since been decided not to distribute this money, but to build it a house in which poor families can live without paying rent.

An investigation of suspicious mortality among children in Pennsylvania elicits the fact that child insurance is a "sell-out" or "conspiracy promoter." In certain localities, where the good die young, a large percentage of immature angels were insured by thrifty parents.

THURSDAY, DEC. 25, 1902.

This is the last issue of THE BEE in the year 1902 and we wish to say to our friends, who have stood by us so nobly, we sincerely thank you for your assistance in various ways and appreciate your material help. We feel grateful for the kind words you have spoken in our favor and feel sure we have given you a good paper and full value for your money. In the year 1903 it is our intention to make THE BEE a better paper than it has ever been, improving it in several respects. It is now a weekly visitor to over 2,000 homes and is read by fully 10,000 people, consequently you can readily see why, as an advertising medium, it is second to none in the county. THE BEE visits homes where no other paper circulates, hence your advertisements bring good results. The possibilities of THE BEE as a newspaper are practically unlimited and the management will seize every opportunity to make it one of the best weekly papers in the state. Here's wishing a merry Christmas and a happy New Year to every friend, subscriber and advertiser of THE BEE.

The Kentucky Exhibit Association has for some weeks been considering quietly the idea of issuing a weekly bulletin in a form of a supplement, to be used by Kentucky newspapers. News of the Exposition movement, with illustrations will be well covered and the bulletin will most likely be issued. THE BEE expressed its endorsement of the idea some time since and will be one of the first papers to give its readers in Hopkins county the benefit of the interesting matter that is to be published in this way. All this special matter about a great State movement, served up in the most attractive form, will not cost the readers of THE BEE one cent additional. We shall be glad to thus serve our subscribers and give our fullest aid to the movement for a magnificent Kentucky exhibit at the Louisiana Purchase Exposition.

Here's to Harvey McCarty and hoping he may win the nomination for Representative from Jessamine county. Harvey is one of the most deserving newspaper boys in the State and as President of the Kentucky Press Association was for the legislators much of the time during the last session in the interest of the newspaper fraternity and the movement for a Kentucky exhibit at the Louisiana Purchase Exposition.

The Louisville Herald and Commercial is taking its place as a newspaper of front ranks with the journals of the South, as THE BEE predicted it would do. The news department of the Herald is growing more complete daily and Editor Young E. Allison is sure to grow on his readers. The old name of Commercial, which now appears in a secondary place in the title, will be forgotten and the new paper will become the Herald to this generation.

THE BEE comes on Tuesday this week to accommodate our advertisers and also the office force. We believe every one should

have Christmas day for their own and follow the best of their inclination as long as they are inclined to do right. Our advertisers have done the square thing by us and we wish to show our appreciation of the same by giving them the advantage of the two days before Christmas.

"To say a pleasant word to anyone was almost impossible."

"I was troubled with indigestion for eight years, and suffered more than I can tell. My doctor's advice was to take a pleasant word to anyone, was almost impossible."

"I had two operations performed by one of the most skilled surgeons of the West, but did not get better. Then, against my doctor's strict orders, I commenced taking Dr. Pierce's Favorite Prescription and Golden Medical Discovery. I followed the advice given in the directions and was cured. I am now a healthy woman."

Womans' diseases, as a rule, spoil the "disposition," because of the extreme nervousness and suffering they cause. Happiness as well as health is restored to the woman whose diseased condition is cured by the use of Dr. Pierce's Favorite Prescription. After eight years of suffering and two fruitless operations, three months' use of "Favorite Prescription" restored Mrs. Moser to perfect health. This great remedy for women's ills, establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. This is not a gentle word—but when you think how liable you are not to purchase for 75c the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1858 for the cure and treatment of Consumption and Throat and Lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boesch's German Syrup.
